Subject:	Development of Child Care Spaces				

On January 15, 2019, proposed additional child care spaces in New West Schools were as indicated in the table below. An update to the proposal below, is to attend to the additional space at Connaught and Howay with portables instead of renovation to existing classrooms. If the addition of child care space grows the enrolment of the school, the interior classrooms should be preserved for future enrolment to keep the K-5 communities together in the building.

SD40, City Staff & WCAS are working closely together to expand the scope of SD40's school age care, including looking at existing school space within the buildings (ie not dedicated portables or classrooms) to provide additional child care. Does a before and after school program need a dedicated space in a portable, classroom or dedicated space at a community centre, or can it make use of school spaces like libraries, gymnasiums, or move outside into the community or outdoor programs? The intent is work toward making more school spaces multi-purpose, and less dedicated for singular functions.

The Board may wish to consider expanding the use of existing school space to allow for more before and after school spaces, or consider foregoing infant-toddler and 3-5 at Howay and Connaught and applying for the new spaces funding to attend to before and after school care. This may be another way to grow enrolment at each of our smaller schools, although not in the neighbourhoods with the greatest demand for space.

Recommendation:

That Staff be directed to pursue the addition of child care spaces by applying for Ministry of Children and Families new spaces funding as presented on February 12, 2019, and by pursuing partnership with the City of New Westminster for McBride Elementary School, as presented; AND FURTHER

The addition of child care spaces as presented, be at no cost to the Board; AND FURTHER
