

SUMMER READING AND RECREATION

Help your child build on the gains they have made in reading.

This summer we are offering a reading and recreation camp for students currently in Kindergarten to grade two. An early literacy teacher, with the support of volunteer reading buddies, will provide targeted reading instruction and engaging activities to build a love for reading.

If you would like to take advantage of this opportunity, please contact us.

This camp is designed for students who have been identified by their teachers as benefitting from a targeted reading program to extend the students learning over the summer. This camp is NOT designed for ELL students.

**For Students
Currently in
Grades K-2**
