

# SUMMER 2022 LITERACY AND NUMERACY COURSES FOR STUDENTS

## Foundations of Numeracy Foundations of Literacy

These courses will focus on the fundamental skills, conceptual understandings, and habits of mind necessary for success in future Mathematics and English courses.

Students will engage in tasks that promote discussion, reasoning, problem solving and inquiry. They will build procedural skills as well as conceptual understandings.

These courses will focus on big ideas and the concepts and skills students need for success in numeracy and literacy. The importance of perseverance, active participation, and strong work habits for long term success will be emphasized.

*These courses are designed for students who have taken Mathematics or English at grade level but are currently at the 'Emerging' stage or otherwise need to build their understanding of the key concepts. These courses are NOT preview courses. Entry into these courses is through consultation with the school counsellor.*
